NUMBER 42.

NAVY IS WAITING.

Main Portion of Sampson's Fleet Lies Patiently in Front of Morro.

It is the Opinion Among Naval Experts That the City of Santiago Will Be Burned by the Spanish Troops Before They Surrender.

OFF SANTIAGO DE CUBA, June 25, via Kingston, Jamaica, June 27.—While the army advances the main portion of the fleet lies patiently in front of Morro castle awaiting its opportunity. Before the end of next week the fate of Santiago and Adm. Cervera should be decided.

By that time it is believed, the Spanish troops will have been forced back upon the city and defeated in a decisive engagement. Simultaneously the forts at the mouth of the harbor should be captured, under cover of a naval bombardment.

Three things will then be left to Cervera—to surrender with his ships, or to make a dash out to sea, or to make a dash out to sea to destruction. He may force the fate by making an attempt to get out of the harbor before the army accomplishes its end. The first Spanish ship to appear off Morro Castle would be sunk within 15 minutes. Nothing in Adm. Cervera's fleet could survive the concentrated fire of all the battle ships in the navy and three of the best cruisers.

The general opinion among naval experts is that Santiago town will be burned by the Spanish troops before they surrender, that Adm. Cervera will destroy his ships and that he will then submit to the enemy. If this supposition is correct the whole work should be accomplished in a week. It is hardly likely that the army can effect its purpose without considerable loss, although its superiority in numbers, caliber and generalship insures an ultimate sweeping victory.

There is every possibility that the Spanish troops may surrender independently of Adm. Cervera. If the Spanish admiral should escape from the harbor, he would be subjected to a fire from his own forts and the army siege guns. If these proved ineffective the harbor mouth would be dragged, the mines removed, Adm. Sampson's ships would enter and Adm. Cervera would be finished off.

When the Americans took Baiquiri they found a letter, partly written in the house of the Spanish commandant. It was addressed to the Spanish commander at Santiago de Cuba, and had the tone of braggadocio. It read in part as follows:

"I am well fortified and prepared to resist all the forces the American pigs can bring against us."

Evidently at this point the American transports appeared and the boasting Spanish officer ran off, leaving the letter half written.

The Yankton arrived this morning from Norfolk. Two thousand Cubans were transported to-day from Accraederos to Altare. They were taken off shore in pontoons, under the supervision of Gen. Ludlow, of the engineers. They belonged to Gen. Callixto Garcia's force and transporting them by water from the west to the east side of Santiago saved several days. It also saves unnecessary fighting. The Cubans will join the army's van. All the conveyances except the battle ship Indiana, which is off the harbor, are coaling at Guantanamo.

This morning the Gloucester shelled a Spanish party that was working at the railroad trestle east of El Morro.

Going to Cuba as Nurses.
TAMPA, Fla., June 27.—Miss Annie Wheeler, Mrs. Maud Kissalm Babcock and Mrs. Liscomb, wife of Lieut. Col. Liscomb, of the 24th artillery, will leave here Tuesday night for Key West. From there they will go to the Cuban battle fields in the capacity of nurses. Miss Wheeler is a daughter of Gen. Wheeler and Mrs. Babcock's husband is a sergeant in the 71st New York.

UNDER WATSON.

Great Squadron to Be Formed for the Purpose of Storming the Spanish Coast and Destroying Cadiz Fleet.

PORT SAID, June 25.—Upon the application of the United States consul the Egyptian government will not permit Adm. Camara's fleet to coal at Suez canal ports.

ROME, June 25.—Aguzzia, liberal, asserts that Italy has privately informed Spain that Adm. Camara's squadron will on no account be allowed to coal at any of the Italian ports on the Red sea.

WASHINGTON, June 25.—The navy department has posted the following bulletin showing Commodore Watson's squadron. It is designated the eastern squadron and is as follows: Flagship Newark, battleships Iowa and Oregon, cruisers Yosefite, Yankee and Dixie, and the colliers Seepia, Abreñia and Alexander. The start will be made at once from off Santiago. The bulletin also showed the following changes in designation of the division of our war vessels:

North Atlantic Fleet—Rr. Adm. Sampson commanding.

First Squadron—Commodore J. A. Howell commanding.

Second Squadron—Commodore W. S. Schley commanding.

Naval Base—Key West, Fla.—Commodore Remey commanding.

NEW YORK, June 25.—A Washington special to the World says that Watson has instructions to intercept and destroy Camara's fleet should it attempt to return to Cadiz. In case it should proceed to the Philippines Watson's

COMMODORE WATSON.

squadron is to follow it through the Suez canal. It is stated that no Spanish cities will be subjected to a severe bombardment. Should Camara proceed to the Philippines Watson will leave enough ships on the Spanish coast to harass commerce.

A Madrid dispatch says the cabinet declares that Camara's fleet will pass through the Suez canal Monday en route to the Philippines.

WASHINGTON, June 25.—The meaning of the movement upon Spain is that the president is determined to open the eyes of the Spanish people to the true condition of the war and to show them how badly they have been fooled and tricked. The sailing of our squadron will no doubt have the effect of ordering the Cadiz fleet now at Cape Said back to Cadiz.

It does not matter particularly if this is done or not. One of the reasons for sending Watson across the ocean is to capture and destroy the fleet. This can be and will be done. It was said Monday in official circles that Adm. Camara will not get through the Suez canal and that he and his fleet will be bottled in the Mediterranean, as Cervera is at Santiago. When it was announced that the Spanish authorities had started Camara's fleet toward the Philippines, our government at once sent a protest to Great Britain against allowing the use of the canal by Spain for war purposes, and also calling attention to the clause in the neutrality proclamation as to coaling ships of the belligerents.

Under the proclamation Spain's vessels could only take on enough coal at Port Said to see them through the canal to Aden, the port at the other end. They would be blocked there, because, as there are nothing but British coaling stations from there to the Philippines, the vessels could not coal again for three months. The administration, as stated in these dispatches, announced that as soon as the Camara fleet was definitely located the Suez canal demonstration would be made against the coast of Spain. Within the last few days the department has been informed that Spain would not be able to coal her ships, and Monday morning at 6 o'clock a cable was received from Port Said announcing that Camara's fleet had arrived at that point. This immediately settled the matter as far as the administration went, and early Monday morning orders were sent to join Adm. Sampson and organize the squadron. At the same time Adm. Sampson was ordered to be in readiness for arrival.

HAVANA IN A PANIC.

Any One Who Breathes a Word of Discontent Will Be Summarily Shot, by Order of Gen. Blanco.

KEY WEST, Fla., June 25.—The most authentic and reliable news yet obtained of the true condition of affairs in Havana was Monday furnished to a press representative by a British subject, who left Havana on board the British cruiser Talbot, and who arrived here Sunday. He says a reign of terror exists at the Cuban capital. Capt. Gen. Blanco has issued a proclamation announcing that any one daring to express an unfavorable opinion of or suspected of being dissatisfied with the present policy of the government will be summarily shot without trial or investigation. This proclamation, it appears, caused dissatisfaction among the members of the order publico, or police force of Havana, who threatened to revolt if full rations were not served out to them. Serious trouble was expected, as the order publico is a numerous and well-armed body of men. The result is that Monday the order publico that patrols the city and its members are themselves police Spanish infantry and artillery soldiers mounting guard over them at every corner. Famine, it seems, is imminent and the stories of the arrival of supplies at Havana via Batabano are pronounced to be untrue. The informant thinks Havana can not possibly hold out six weeks longer. The city is pronounced to be panic-stricken. Its inhabitants are expecting every moment to be bombarded by the American fleet, as they realize that Capt. Gen. Blanco's attitude releases the United States from the obligation of giving the customary bombardment notice.

PRESIDENT'S MESSAGE.

He Asks for Suitable Reward for Heroes, Lieut. Newcomb, Capt. Hodgson and Cadet Powell.

WASHINGTON, June 25.—The president sent special messages to Congress for the recognition of the services of Lieut. Hobson, the hero of the Merrimac; of Lieut. Newcomb and crew of the revenue cutter Hudson, which rescued the torpedo boat Winslow at Cardenas; Capt. Hodgson, of the dispatch boat McCulloch, which figured in the battle at Manila, and Naval Cadet Joseph Wright Powell, who held the steam launch under the bluffs at Santiago harbor searching for the crew of the Merrimac. Authority is asked of the senate for the transfer of Hobson from the construction corps to the line of the navy and the president announces that with authority given he will by and with the advice and consent of the senate suitably advance Hobson in the line. The Hudson's crew are to be given a vote of thanks and medals of commemoration. Capt. Hodgson is to be suitably recognized.

The president in mentioning Hobson cites the fact that the crew with him have already been promoted.

WASHINGTON, June 25.—After the president's message in regard to Lieut. Newcomb and Capt. Hodgson was received in the senate Monday, Senator Fry introduced a bill proposed in the navy department carrying the president's recommendation into effect. The resolution appropriates \$1,000 for the manufacture of medals.

FOR ASSAULT.

Cincinnati Residents for San Francisco Taken from a Train at Reno, Nev., on Complaint of a Brakeman.

RENO, Nev., June 25.—Fifteen regular army recruits en route from Cincinnati to San Francisco were taken from the west-bound train Monday and placed under arrest on a warrant sworn out by a brakeman on the train whom they turned up and spanked at the station here. It seems Conductor Gillan gave orders to keep them out of the smoke car and arranged with the porter of the car in which they were to allow them to smoke in the train car. They were taken before Justice of the Peace Linn and pleaded guilty as charged, and were ordered to appear Monday night at 7 o'clock for sentence.

Camara's Theatrical Promenade.

LONDON, June 25.—The Times, commenting editorially on the movements of Adm. Camara's squadron, says: "This singular naval promenade is probably of a theatrical character, designed to serve the double purpose of impressing the United States and of satisfying public opinion in Spain. It will certainly fail to attain the first of these objects. The million pasetas required to pay for the passage of the squadron through the Suez canal might be more usefully employed than in a demonstration that alarms nobody and that is too late to relieve Manila."

WELL INFORMED.

Thought It Will Be Necessary to Lay a Regular Siege to Santiago—Rifle Pits to Be Stormed.

OFF SANTIAGO, June 27, via Kingston, June 28.—Some officers believe it will be necessary to lay a regular siege to Santiago and advance with a line of earthworks until the rifle pits can be shelled by shrapnel by the light artillery. These pieces have an effective shrapnel range of 2,800 yards, and the Mauser rifles in the hands of the Spaniards are sighted to 1,900 yards and they kill at 2,100 yards.

However gratifying to the national pride is the careless attitude of our enlisted men, the grave fear remains that they may need a more severe lesson than the ambush of the rough riders before they realize the deadly possibilities of modern warfare. The road over which the ordnance must be brought is densely lined by underbrush; every yard is an artificial hedge-row and the road to the base of supplies is in a similar state. But every little danger is apprehended of a flank attack, as it is evident Gen. Linaires is acting strictly on the defensive. The failure of the Spanish troops at Holguin, Manzanillo and Guantanamo to effect a junction with him has left the Spanish commander so weak that it would be an act of insanity upon his part to attempt to assume the aggressive or to retreat.

The problem now confronting the army is the transportation of supplies, for the roads to the front are still impassable for wagons, but are being improved. In the meantime the pack train is being used. The first of these left Juraguá Sunday night and others left Monday. The officers and men were completely out of rations Sunday. The 7th received half rations and Monday they received nothing. The boys are complaining bitterly, but are pacified with the assurance that the pack train would be here Monday.

Should a night attack occur our soldiers would fare worse than did the marines at Guantanamo, as the attacking force here would not be at the disadvantage of having to charge uphill.

The Cubans with the advance forces in spite of the good behavior of their comrades at Guantanamo seem to be utterly worthless. All day they sit in the shade of their flimsy thatched camps and at night they smoke cigarettes and gorge on Uncle Sam's rations, while in sight of them Uncle Sam's boys with empty stomachs and not a bit of tobacco for their pipes, build roads all day under the blazing sun and sleep on their rifles under the star-lit sky at night.

The Spaniards are using brass-sheathed lead bullets, and the brass ribs on the bullets and tears the flesh horribly, while the small brass splinters cause blood poisoning. They are practically explosive bullets and are used in the Remingtons. They also cut a small groove through the end of the Mauser bullet so that it mushrooms on striking with a similar result.

The outlook here is threatening. Everybody believes a great battle is imminent. With the Spanish and American advance posts almost close enough to see the whites of each others' eyes, a collision may occur at any moment.

MANY PRISONERS.

Aggregate Now Have 20,000—Spanish Wounded Sent to Manila Aguinado Occupies Governor's Mansion.

HAJA KONG, June 25.—Gen. Aguinado, according to letters brought here from Cavite by a German steamer, occupies the mansion of the late Governor of Cavite. He will shortly move to this magnificent room for the American troops. The insurgents now have 5,000 prisoners. A hundred and eighty-seven of the Spanish wounded have been sent to Manila with a flag of truce by permission of Adm. Dewey. The wounded Spanish officers, with one exception, are at Cavite.

The Spanish Brigadier Moret was killed at San Fernando in an attempt to force the rebel lines.

An American official at Cavite writes as follows:

"If great bloodshed and destruction come to Manila Spain may justly blame the Germans. Manila would have surrendered before the arrival of the German squadron without bloodshed, but now owing to the moral support of its presence the city refuses to surrender."

Mad Dog at Urbana.

URBANA, O., June 25.—A mad dog attacked 12 persons on the street Monday before it was killed. James Nolan, a 12-year-old boy, was frightfully bitten about the face and head, and Henry Birks, another boy, was bitten about the head and body. Six other persons were bitten by the dog, and for a while there was a reign of terror, until it was pursued and killed.

ANNOUNCEMENTS.

We are authorized to announce

JOHN B. THOMPSON, as a candidate for the renomination for Representative in Congress subject to the action of the Democratic party.

We are authorized to announce

JAMES B. MCCREARY, a candidate for nomination for Representative in Congress subject to the action of the Democratic party.

Democratic County Convention.

The Democratic Committee for Eighth Congressional district, met at Lawrenceburg on June 1st and ordered that mass meetings be held at the Court houses in the respective counties of the district on Saturday, July 9th, 1898, at 2 o'clock p. m., for the purpose of selecting delegates to a district convention to be held at Danville on Tuesday, July 12th at 5 o'clock p. m. to nominate a candidate for Congress. In compliance with the above, a mass meeting is hereby called for the time and date above mentioned to be held in the Court house at Mt. Vernon, Ky.

W. J. SPARKS, Chm.
Democratic Co. Committee.

THE Congressional candidates spoke here Monday last. Gov. McCreary led off with a forty-five minutes speech, in which he reviewed his work in Congress. Other important topics were discussed. He paid his respects to Mr. Gilbert, whom he claimed would be misleading in his speech which was to follow the Governor's. Most of the discussions were taken up between the candidates discussing the soundness of the Governor's silver principles. They failed to show that he is not the same James B. McCreary, the best congressman ever sent from the 8th district whom Rockcastle will instruct for on July 9th and the convention at Danville will re-nominate to again carry the Democratic banner to victory.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and ruin his horse, going for a doctor and have a big bill to pay besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer he is getting poorer. Ashland Lodge No. 640 meets 2nd Monday 10 A. m.

LOCAL & OTHERWISE.

C. C. Williams has returned from New York.

Senator G. T. Farris was here Wednesday.

Mrs. L. M. Scroggs is visiting in Auburn, N. Y.

The family of J. J. White is visiting Garrard relatives.

Miss Pollie Owens, of Barbourville, is visiting relatives here.

Mrs. Will W. Grimes returned to her home, Lexington, today.

Mrs. Annie Miller, of Washington, D. C. is visiting relatives here.

The Gentry re-union will take place at Crab Orchard, August 1st.

Mrs. Susie McFerron has joined her husband at Lebanon Junction.

Our good friend J. T. Clark, of Disputanta, was here on Wednesday last.

W. G. Adams was in yesterday making final arrangements for his big picnic.

The Mt. Vernon Lime Co., has begun to lay the foundation for the new lime kiln.

Deputy Collector Austin has resigned and is succeeded by Mr. West, of Lancaster.

Rosa Lichteiter who had her foot sprained some weeks ago is still suffering from the injury.

Judge R. G. Williams and Mrs. Cleo Brown accompanied Miss Haley on her return to Somerset, Wednesday last.

Dr. J. W. Childress, of Orlando, was here Monday. The Doc. says he has five cases—love we suppose—he didn't say.

Messrs. Scott and Murphy were out from Danville the first of the week to inspect the progress on their lime works.

Misses Carrie Lair and Vena Newcomb visited Mrs. John Stephens at Disputanta last week and attended Berea commencement.

The transfer mail boy overlooked a sack of SIGNALS at the post-office last Friday and that accounts for delay of our papers South of us.

We are informed by School Sup't Davis that the Teachers' Institute will meet on the First Monday in August, at Mt. Vernon, Ky.

Miss Mollie Walden, niece of W. A. B. Davis, and one of the prettiest and most intelligent young ladies we ever met, returned to her home at Burnside, on Sunday last.

Revs. Grinstead and Mills, of the Methodist church, have been holding meetings in the court house here since Tuesday evening with a good attendance.

Franklin, on Wednesday last, to spend a few days with her old friends here.

A. C. Stupp goes to Louisville today to take a position with a newly established music house of Harding & Riehm.

The L. & N. will sell excursion tickets on July 2, 3rd and 4, good returning until July 7th. One and one third fare. Visit your friends.

Later reports of the killing of Jack Catron at Somerset go to show that Mr. Catron had no weapons at all and it appears to have been wanton murder. Somerset papers speak very highly of the deceased. He stood very high in this county and was everybody's friend.

Mr. P. Ketcham of Pike City Cal., says: "During my brother's late sickness from sciatic rheumatism Chamberlain's Pain Balm was the only remedy that gave him any relief." Many others have testified to the prompt relief from pain which this liniment affords. For sale by M. C. & D. N. Williams, Mt. Vernon Ky.

Here's your chance. Read the following puzzle and comply with its directions and we will send you the SIGNAL one year. "Railroad eno su dnes. Ti yap repap siht ewo uoy fi." We are willing to give away 500 yearly subscriptions to that number of people provided each of them unravels the puzzle and follows the directions therein.

The Rockcastle County Medical Society met here Wednesday. Dr. Cooper, of Livingston, Drs. Benton and Clark, of Brodhead, Dr. Childress, of Orlando, Dr. Brown, of Stanford, Drs. Davis, Lovell and Pennington, of this place, were in attendance. The next meeting will be at Livingston near the middle of August.

The kiln now under construction by the Rockcastle Lime Company will be of two hundred barrels per day capacity. Other kilns will be added when their trade increases, which it will surely do. Telephone connections will be made with their works and other modern conveniences added for running a large and successful business. They propose putting in machinery for making barrels, and expect later to put in a fire-brick making establishment and use fire clay that is convenient to their works in inexhaustible quantities.

In the meetings and marchings of the volunteer troops here this week, the Mt. Vernon brass band furnished fine music. They did all the playing free of charge. Our people should do something substantial for this band. They have been at much expense for their instruments and teachers, and have put in a great deal of time practicing and have always responded when called upon to furnish music, and treat that. It is surely time to show our appreciation of their unselfish work. Can't somebody suggest something?

Young Thomas, of Cambridge, Ky., on Wednesday last, to spend a few days with her old friends here.

Years of a recent date to hand and pleased to hear from you. Many thanks for the SIGNAL. I enjoy reading it very much and could not rest easy on Saturday, if it did not come. I was up to see Frank Brinkley today, and was surprised to see him in such good spirits. He has on a full uniform and is every inch a soldier. I also was at the Second Ky., to-day and saw all the Mt. Vernon boys. All were well. I told Harris White that I saw in the Louisville Post where Lieut. Lewis, of Mt. Vernon, had 55 men in camp at Camp Harris White. Bob Ping is the quietest man in the Company. I have not been with my Company for 10 days. I am located at Brigade Headquarters and am master of officers' corral. Have a nice horse to ride and get more pay. Am due many thanks to Adjutant General Bob Mitchell, of Bowling Green, for securing the soft snap

Lieutenant S. D. Lewis took 42 men with him to Lexington, Wednesday morning to join Colson's Regiment, the 4th. A portion of the squad had been at Camp Harris White at this place for four or five days awaiting orders to move. On Monday night the recruits were addressed at the Court House by Gov. McCreary, Rev. Carmichael and Prof. Scroggs. Tuesday night nearly every one of the town people were at the court house and remained until the train arrived to carry away the soldiers. Patriotic and encouraging addresses were made by Judge McClure, Judge Colyer, B. J. and L. W. Bethurum. The following is the roster of the company:

S. D. Lewis, Bee Mullins, Wm. A. Williams, R. L. Jones, Lewis Dillon, John Poynter, John Howell, Smith Ping, John Reynolds, Sam Tankersly, James Whitaker, Dick Whitaker, Henry Idol, John Argenbright, David Herrin, Phillip Jones Wm. Baker, Wm. Simpson John B. Gentry, Wm. Browning, Joe Collett, Robt. Harris, J. S. Durham, Eugene Padgett, John Rickels Boston Durham, Thomas Thompson, Albert Albright, J. S. Todd, W. H. Mobley, J. S. Mobley, Albert Curd, Emil Henzman, Burdine Pedigo, Wm. Montgomery, Dock Jackson, T. H. Price, John Parker, David Barnett, Emil Suter, A. Pennington and Tom McClure.

The boys were accompanied to Lexington by James I. White, Judge McClure and Prof. L. M. Scroggs.

Prof. Scroggs will probably be given a Chaplain's position.

James I. White deserves much credit for his untiring efforts in looking after the welfare and comfort of the boys. He is a hustler and gets what he goes after.

A farewell supper was given the departing soldiers, at Miller Hotel.

Lewis Jones joined the Middleboro Company here Wednesday morning.

There will be plenty to eat on the grounds, but every one can bring a basket.

A Telephone office will be opened at the Grove, connecting with Brodhead, Stanford, etc.

Officers will be present and good order will prevail.

W. G. Adams.

for me. All of the boys are looking for anything that comes up and it takes a hustler to get there. This is Sunday and all the boys are foot-loose. Some are at Ball games, some out looking for bullets and some playing checkers and other games; others are rushing the canteens for lemonade and cool drinks—no beer sold on Sunday. The boys sneak around and get moonshine. I have had a fine time to-day riding around looking at the park and the high towers. I don't have any more drilling to do now and must say thank God I am glad of it for I was going over the same old thing every day for five hours, and it got to look a little foolish to me, but I suppose Uncle Sam knows his business. A message has just come in telling us that we leave Tuesday or Wednesday for Cuba. The boys are yelling like wild men. I will be in a baggage car with three horses and three men—no one to boss me and no one to yell. Hail! I don't have anything to do only see that a

certain number of men are detailed for training duty at Lexington, but I like that. It would pay anyone to come a long way to get to the Park. Quite a crowd of Kentuckians from different points of the State are here to-day to see their friends; among the lot I noticed our Congressman, Geo. Davison, the Hon. Dick Warren and Judge Sankey. I am getting fat on hard tack.

E. T. FISH

Bill Burnside and G. T. Covert spent a day or two with M. G. Aldridge.

Miss Mattie Mattingly, one of Stanford's beauties, is visiting at J. T. Cherry's and H. Hilton's for a while.

Albert Albright and Bird Roberts left here for Uncle Sam's service.

Senator Geo. Farris, of Lancaster is here mixing with the people.

The telephone poles will be set to Mt. Vernon by the end of the week.

Brodhead will probably have electric light plant by next fall. The machinery at the Roller mills will be utilized for running a dynamo.

Mrs. Mattie Carter, who has been ill for many weeks, died last Friday at Brodhead. The remains were interred at the Lewis grave yard near Mt. Vernon Saturday afternoon. Mrs. Carter was a noble Christian woman who had the respect and love of everyone who knew her. Our community will sadly miss her.

The wheat harvest is on hand every one and body is busy.

Miss Lizzie Heron is spending a few days with her old friends here.

A great many of our citizens went to Mt. Vernon, Monday to hear the Democratic candidates for Congress speak. They were very much pleased.

Died.—Mrs. Mattie Carter died on June 24th after several months of suffering. Despite the untiring efforts of the physicians and the many friends the monster Death claimed his victim. Mrs. Carter was the daughter of David Lewis and the wife of Lee Carter, deceased. She was a highly cultured lady, a good teacher, and had battled with the world and had made a good living for her children since the death of her husband. She was brave and noble, even to the last. With sad hearts and weeping eyes, the people of Brodhead gave her remains to her people who conducted the funeral at her father's burying ground. She left three children who deeply mourn her loss.

Charley Davis and Bob Mattingly stopped with their old friend H. Hilton, Tuesday night.

Bill Burnside and G. T. Covert spent a day or two with M. G. Aldridge.

Sailors and Their Grievances.
The grievances of sailors examined by the authorities in ports of entry, where the sea men belong, often turn out to be imaginary or greatly exaggerated. But there are plenty of real and just complaints. One of the most common is the complaint of the sailor who is asked to do a day's work for a week's pay. The sailor who is asked to do a day's work for a week's pay. The sailor who is asked to do a day's work for a week's pay.

A LEAF FROM CAMP LIFE.
The Varied Commissions of Lieut. Mahoney When He Went to Town.

When Lieut. Mahoney came to Sioux City to recruit men he was intrusted with a number of errands for the members of companies H and L. He jotted them all down on a piece of paper, and referred to them when he came to Sioux City. This piece of paper will give an idea of what the men wanted in Sioux City and some of the things Lieut. Mahoney had to do. It reads as follows:

"Get three .38-caliber Colt's, for officers."
"Get a ruler and some black lead pencils."
"Kiss Harry Hamilton's girl."
"Have that order of roses countermanded for cigars."
"Take Claypole's new vest, and get his old one out of the closet."
"Get 'Ed' Brown's manual for army cooking, his sword knot, and his French dictionary."
"Get Harry Chapman's blanket strap and tray for chess."
"Get any old thing."—Sioux City Journal.

Something Important.
Take advantage of this special offer and send your name and address, together with the names and addresses of ten of your friends who ride bicycles, with twenty-five cents to pay express charges, to the Frictionless Bearing Company, 55 Liberty Street, New York City, and we will forward you a set of our new bearings for bicycles which require no oil, and certainly make your wheel run twice as easy. They fit any wheel, and you can put them on in twenty minutes. Send size of balls in front and rear wheel and crank hanger. The regular price for equipping a bicycle is \$2.50, but in order to get them in use all over the country quickly we make you the above proposition. After trying them, if you would like to act as agent send for terms.

Rebukes His Tired Auditors.
A clergyman preached a rather long sermon from the text: "Thou art weighed in the balance and found wanting." After the congregation had listened about an hour some one began to get weary and went out; others soon followed, greatly to the annoyance of the minister. Another person started, whereupon the parson stopped his sermon and said: "That is right, gentlemen; as fast as you are weighed pass out. He continued his sermon some time after that, but no one disturbed him by leaving.—Chicago Chronicle.

Electric Fans in Sleeping Cars.
The Baltimore & Ohio South Western Railway officials have solved the problem of cooling sleeping cars in stations at night. At Cincinnati, Louisville and St. Louis this line has sleeping cars placed in the stations at 10 p. m., which do not depart until after midnight, and in order to make them comfortable and cool have placed 16-inch rotary electric fans in each end of the sleepers, thus removing the heat and impure air from all parts of the car. The fans have been in operation about three weeks, and have been the subject of many favorable comments from the traveling public.

Life and the Liver.
"Success in life depends upon the liver" is the way Chas. Lamb, the poet and punster, put it. Medical science has proven that nine-tenths of the ailments of living have their origin in the liver, and in constipation caused by its derangements. Keep the liver lively and all will be well. Modern science points out Castorets as the only perfect, gentle, positive liver regulator fit to be used in the delicate human organism. All druggists sell Castorets 10c, 25c, 50c and we recommend them most heartily.

ENLISTING OF VOLUNTEERS.
Rules Issued by War Department for Recruiting of Regiments to Their Full Capacity.

The war department has issued instructions for the guidance of the officers of the volunteer army detailed to recruit for their own organizations to fill them to the maximum number under the second call of the president for 75,000 men. Applicants for enlistment must be between 18 and 45 years old, of good character and habits, able-bodied, free from disease, and must be able to speak the English language. Married men will be enlisted only upon the approval of the regimental commander. Minors must not be enlisted without the written consent of a parent or guardian. The term of service is two years. For infantry and artillery the weight must be not less than 120 and not more than 190 pounds, and for cavalry the weight is not to exceed 165 pounds, though recruiting officers are authorized in their discretion to accept desirable applicants ten pounds or less over weight or under weight.

For a company the maximum of all grades is 106 in infantry, 100 in cavalry, 173 in field artillery and 200 in heavy artillery. Wherever practicable the choice by an accepted applicant of a particular company of the regiment or other organization should be respected.

IN GOOD CONDITION.
Mild Winter Favors the Animals of the Yellowstone National Park—A Report.

Secretary Bliss has received from Lieut. G. W. Cross, acting superintendent of Yellowstone national park, a report on the condition of the animals there. The report states that the winter was very mild, and as a consequence the wild animals are in better condition than usual. The buffalo number between 20 and 40, and while doing better than heretofore, it cannot be said they find the location favorable. The weather is too cold in the park and their young are threatened by wild beasts. The other protected animals have increased, and but one case of poaching was discovered. This was in December last, when 13 elk were killed. At least one of the poachers, it is hoped, will be punished. Seven bears suffered an extraordinary fate in Death gulch, where they were found dead by a guide. He went down to where they lay to cut off their claws, but in three minutes was so overcome by gas arising from the ground as to become very faint. It was evident that the bears had been killed by this gas.

CALIFORNIA NOT KICKING.
Why She Is Willing to Send Her Coast Defense Vessels to Aid Admiral Dewey.

Senator Perkins telegraphed from Washington to President Craig, of the chamber of commerce, as follows: "I think the people of California should protest against the sailing away from the Pacific coast of the Monterey, Monadnock and all other armored war vessels."

To this Mr. Craig sent the following reply: "We protested on the 12th of April. In the meantime Dewey has acquired for California a new outlet for our energies, employment for our shipping, business for our merchants, and has opened a colonizing future far beyond our most ardent expectations. We of San Francisco will hold nothing back which may be of service to the administration, even to our jeopardy."

DOWN ON THE FADS.
Mr. Stately Believed in Bringing Young People Down to a Business Basis.

"Mrs. Stately," began her husband, the other evening, "you're a good deal of what they term a fadist. It has been my rule to humor all your eccentricities, but from this time on, unless I find good and sufficient reason to change my mind, the education of our children is to be of the most practical nature possible."
"Just as you say."
"I understand that Loretta studied botany for three years, yet last season she went out to gather some greens and brought in the worst collection of weeds I ever saw outside of a bankrupt farm. They would have poisoned a mule. Yesterday this botanist sat in the parlor, bolstered with cushions, reading trash three inches thick and in fine print at that, while you were in the back yard setting out sweet peas. Isabel went through the cooking department from potato paring to fine pastries, and yet you can't figure the simple interest on a promissory note for more or less than a single year. He can blow around about the constellations and about the direct communication with Mars, but I'll bet a farm he couldn't keep his own personal accounts on a single entry system. He's never going to locate in Mars, and there's not a dollar in the constellations for him. We'll just bring these young people down to a business basis, and when they have to when you and I wear out, they can do their dad chasing. And that's the word with the bark on, mother."—Detroit Free Press.

A NAVAL HERO'S STORY.
From the Times-Herald, Chicago, Ill.

Late in 1861, when President Lincoln issued a call for volunteers, L. J. Clark, of Warrenton, Ore., was among the first to respond. He joined the mortar fleet of Admiral Porter just before the memorable operations on the Mississippi River began. It was at the terrible bombardment of the Vicksburg forts that the hero of this story fell with a shattered arm from a charge of shrapnel.

After painful months in the hospital he recovered sufficiently to be sent to his home at Warrenton, Ore. Another call for troops fired his patriotic zeal and Clark soon enlisted in Company H of the 7th Ohio Volunteers. In the army of the Potomac he was in many engagements. Being wounded in a skirmish near Richmond, he was sent to the hospital and thence home.

Soon afterward he was called to the study and then the practice of veterinary surgery. Seeking a wider field than the Ohio village afforded him, he went to Chicago, where he now has a wide practice. Several years ago Dr. Clark's old wounds began to trouble him. He grew weak and emaciated, and his friends despaired of his life. He finally recovered sufficiently to be out, but was a mere shadow, weighing only 90 pounds. The best medical attendance failed to restore his lost strength and vigor. A friend gave him a box of Dr. Williams' Pink Pills for Pale People, and Dr. Clark, "and they helped me so much that I bought a half dozen boxes and took them. I soon regained my strength, now weigh 190 pounds and except for injuries that can never be remedied, am as well as ever."

Why She Didn't Marry.
It was all the photographer's fault that Miss Vanderdecken didn't marry. She looked beautiful in the portrait she sent out to India, and all the men in her brother-in-law's regiment were raving about her, till somebody spied out at the back of the photo what that silly camera fellow had written. "The original is carefully preserved."—Household Words.

MRS. LUCY GOODWIN.
Suffered four years with female troubles. She now writes to Mrs. Pinkham of her complete recovery. Read her letter:

DEAR MRS. PINKHAM—I wish you to publish what Lydia E. Pinkham's Vegetable Compound, Sanative Wash and Liver Pills have done for me.

I suffered for four years with womb trouble. My doctor said I had falling of the womb. I also suffered with nervous prostration, faint, all-gone feelings, palpitation of the heart, bearing-down sensation and painful menstruation. I could not stand but a few minutes at a time.

When I commenced taking your medicine I could not sit up half a day, but before I had used half a bottle I was up and helped about my work.

I have taken three bottles of Lydia E. Pinkham's Vegetable Compound and used one package of Sanative Wash, and am cured of all my troubles. I feel like a new woman. I can do all kinds of housework and feel stronger than I ever did in my life. I now weigh 134 pounds. Before using your medicine I weighed only 108 pounds.

Surely it is the grandest medicine for weak woman that ever was, and my advice to all who are suffering from any female trouble is to try it at once and be well. Your medicine has proven a blessing to me, and I cannot praise it enough.—Mrs. Lucy Goodwin, Holly, W. Va.

COULD SCARCELY RAISE HIS HAND.
Yet took care of seventy head of stock.

The farmer who found a friend.

Serious results often follow a strain, especially when it affects the back, and few people are so liable to strain as those who are lifting heavy loads of various kinds, from day to day. The teamster rarely ever overtaxes his strength. Familiarity with the class of work he handles, enables him to entirely gage the load he lifts so as not to put an excessive burden on himself. But with the farmer it is different. He is lifting loads of such varying weights and under such varying conditions that he is very liable to lift a little too much some day, with injurious results. Many serious affections of the great organs of the body originate in a strain. It was so in the case of H. R. W. Bentley, of Towner, North Dakota. A strain resulted in serious trouble with the liver. How he recovered and was enabled to feed seventy head of stock during the winter, let him tell himself:

"About a year ago, I sustained an injury in my back and shoulders by lifting a heavy weight. After a time, a liver trouble came on, which so weakened me that I could scarcely lift my hand to my head. While in this condition, I began the use of Dr. J. C. Ayer's Pills, and finding almost immediate benefit, continued until I was cured of my complaint, so that I was able to take care of seventy head of stock all through the winter, which shows that the cure was not temporary but permanent."—H. R. W. Bentley, Towner, N. D.

The action of Dr. Ayer's Pills on the liver makes them invaluable for those living in malarial climates. C. F. Allison, Quitman, Texas, writes:

"I have found in Dr. J. C. Ayer's Pills an invaluable remedy for constipation, biliousness, and kindred disorders, peculiar to malarial localities. Taken in small and frequent doses, these pills act well on the liver, aiding it in throwing off malarial poisons, and restoring its natural powers. I could not dispense with the use of Dr. Ayer's Pills."—C. F. Allison, Quitman, Tex.

Dr. Ayer's Pills are a specific for all diseases of the liver, stomach, and bowels, they promote digestion, cure constipation and its consequences, and promote the general health of the entire system. They should always be used with Dr. J. C. Ayer's Sarsaparilla when a cathartic is required. More about the pills in Dr. Ayer's Curebook. Sent free. Address the J. C. Ayer Co., Lowell, Mass.
